

National Art Experience

Camp Fire USA youth from all over the country participate in the **National Art Experience** held each year. You can participate, too! You'll learn the techniques for creating something using the artistic medium for each year's competition. You can learn about this year's competition from your leader or council. Orca Council will have an Art Show with judging and the winners will be announced.

The Art Experience award is a diamond shape to symbolize creation. A hand and a star symbolize your personal creativity. You can earn this emblem each year you participate in the National Art Experience. You will need to complete **four of the six activities** listed below and enter a piece of artwork in the Art Show in order to earn this emblem.

In addition to the emblem, you can earn a purple national project bead for each of the activities listed below that you complete.

1. Visit an art gallery, art show, museum, or art studio.
2. Talk to an artist that uses this medium. Ask why she or he chose that medium and view samples of work. Ask about art as a career.
3. Find at least three ways to use this medium to make a finished product.
4. Find a sample of this medium displayed as art in your community. Discuss the work, and how and where it is displayed.
5. Experiment with the medium to design and make something without using a pattern or kit.
6. Select and finish a piece of art suitable for an art competition.

Use the section below to make a record of the activities you have completed.

Art galleries, art shows, museums and art studios I've visited:

Artists I have met and what I learned from them:

A sample of art I have found displayed in my community:

Here is what I made. Describe in words, draw a picture or include a photo:

This is what I liked learning about:

Name: _____ Grade: _____ Age: _____
